DID YOU KNOW THAT?

* **Gossip Day 1:** Someone slept on the floor in training room. Did you know that?

First day, first ideas, first mess, first challenges. That's the summary of our 4th of May in Rydzyna. We were a bit sleepy in the morning, trying to catch up everything and understand how it goes. For some, all the training is about having fun, for some others the expectations are higher.

Anyway, we tried to discover something so simple as take coffee for free in the local castle; or, harder - to get into the grandmothers' house. Some found a dog as a local animal, others caught in the photo a duck swimming on the lake. Everyone kept in mind as the most important: spend time together, getting into know each other, and make connections stronger with participants.

Of course we are not all the same, but for all of us "Apteka" is pharmacy and "abc" is the name of the local supermarket. We met local people with who we chatted.

Generally, the atmosphere between us is very positive and we want to learn and

develop more, know new people, cultures and traditions, make new friends, take them home in our memories, get new knowledge and have fun with new experiences.
