

# DAY 6

## DAY 6

For some of us the day started really hard, in the morning. We went to Leszno, to Altenatywa, to have training day. As usually, we started from some energizers. Got to know our personalities and how, as a leader, we should deal with people with different personalities. We've done some presentation exercises and also we made videos about our dreams, just to show how we look during making speeches
